**Dedication:**

I dedicate this research to my parents for their unwavering support and encouragement throughout my academic journey, and to my lecturers for guiding me in the principles of accounting and finance.

**Abstract:**

Financial planning is an essential component of personal and corporate financial management. This research investigates various strategies employed by individuals and organizations to achieve financial stability and long-term growth. Using a combination of quantitative data analysis and literature review, the study examines budgeting techniques, investment planning, and risk management practices. The findings highlight the importance of strategic financial planning in enhancing wealth creation, optimizing resource allocation, and ensuring sustainable financial health.
